ELECTRICITY OUTAGE (NB. TIMES)

Please note that there will be a scheduled electricity outage impacting the Springs area, specifically Wepenaar Street. We are planning to switch off the entire street on **Wednesday, 28 February 2024, from 09:00 to 16:00**. Alternatively, if weather conditions are adverse, the outage will be rescheduled to **Wednesday, 6 March 2024**, during the same hours.

This outage is necessary to upgrade the current open wire configuration to Aerial bundle conductor, aiming to prevent conductor clashing and mitigate potential faults caused by trees growing into the lines. Additionally, bush clearing along the line, which is experiencing numerous earth faults, will be conducted.

Please note that electricity supply may resume at any time during the outage, and all electrical installations should be treated as live at all times.

For further information or inquiries, please contact Mr. J. Mosenene, Manager of Technical Services (Electrical), at 051 – 633 2406.

Thanking you in advance for your cooperation.

Yours sincerely

ELEKTRISITEITSONDERBREKING (NB. TYE)

Neem asseblief kennis dat daar 'n geskeduleerde elektrisiteitsonderbreking sal wees wat die Springs-area, spesifiek Wepenaarstraat, sal raak. Ons beplan om die hele straat op **Woensdag, 28 Februarie 2024, van 09:00 tot 16:00 af te skakel**.

Alternatiewelik, as weerstoestande ongunstig is, sal die onderbreking gedurende dieselfde ure na **Woensdag, 6 Maart 2024** herskeduleer word.

Hierdie onderbreking is nodig om die huidige oopdraadkonfigurasie na Lugbundelgeleier op te gradeer, met die doel om geleierbotsing te voorkom en potensiële foute wat veroorsaak word deur bome wat in die lynegroei, te versag. Boonop sal bosskoonmaak langs die lyn, wat talle aardfoute ondervind, uitgevoer word.

Neem asseblief kennis dat elektrisiteitstoevoer enige tyd tydens die onderbreking kan hervat, en alle elektriese installasies moet te alle tye as lewendig beskou word.
